PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 6+ years of experience building scalable, high-performance web applications and APIs. Strong expertise across frontend (**React, Next.js, Vue.js**), backend (**Node.js, Express, Golang**), and databases (MongoDB, PostgreSQL). Proven track record of improving system performance, reducing bugs, and delivering production-ready solutions used by thousands of users. Comfortable owning features end to end from system design and implementation to deployment and monitoring.

Core Technologies: React, Next.js, Vue.js, TypeScript, Node.js, Express, Golang, GraphQL, MongoDB, PostgreSQL, Redis, REST APIs, Docker, AWS

EXPERIENCE HISTORY

FULL STACK WEB DEVELOPER, RYD LEARNING 08/2023 – Present

- Designed and built scalable REST and GraphQL APIs using Node.js and Express, powering mobile and web applications used by 2,000+ active users.
- Improved API response times by ~30% through query optimization, indexing, and Redis-based caching.
- Developed dynamic, reusable React components to support dashboards, onboarding flows, and course management features.
- Integrated secure authentication and authorization flows using JWT and role-based access control.
- Built performant frontend modules using React and Vue.js for dashboards and learning interfaces.
- Developed high-performance microservices in Golang for background processing and API integrations.

BACKEND DEVELOPER, REEF FINANCIAL LIMITED 01/2020 – 03/2024

- Engineered backend architecture for loan and financial products with a focus on security, reliability, and auditability.
- Reduced critical production bugs by ~40% by improving debugging workflows, logging, and validation layers.
- Implemented secure data validation, audit logging, and API monitoring to support compliance and operational transparency.
- Optimized database queries and API endpoints to support growing transaction volumes.

FRONTEND DEVELOPER, CLOUD EQUIPMENT 04/2021 – 07/2023

- Built modular, reusable UI components using React, improving development speed by ~25%.
- Optimized frontend performance, reducing page load times from ~3s to ~1.8s.
- Collaborated closely with backend engineers to integrate APIs and ensure consistent data flows across applications.
- Improved UI consistency and accessibility across multiple customer-facing pages.

PROJECTS

RYD Learning, <https://rydlearning.com>

- Built full-stack learning management features including user onboarding, course modules, and analytics dashboards.
- Implemented Node.js APIs and React interfaces to support scalable content delivery and user management.

Davenport Microfinance Bank, <https://davenportmfb.com/>

- Built the full-stack digital banking web platform for a CBN-licensed microfinance bank
- Delivered public marketing site, product pages, and account onboarding flows
- Implemented surfaces for core banking services, loans, transfers, and mobile banking entry points
- Shipped a production React and Node.js stack focused on trust, clarity, and conversion

Xolani Bridge, <https://xolanibridge.com/>

- Developed MERN-based workflows for secure medical imaging upload, sharing, and reporting.
- Built APIs and frontend modules enabling real-time collaboration between hospitals and radiologists.

Visa Companion AI, <https://visacompanion.ai/>

- Developed Next.js and Vue.js interfaces and backend services (Node.js/Golang) powering AI-driven visa eligibility checks.
- Integrated advanced prompt workflows using OpenAI APIs to support personalized user experiences.

Mongoro, <https://mongoro.com>

- Implemented MERN architecture for digital wallet features including payments, transfers, QR transactions, and bill payments.
- Built secure Node.js APIs and improved React-based user flows.
- Integrated Redis caching for frequently accessed wallet and transaction data to improve response times and scalability.

SKILLS

Databases

MongoDB, PostgreSQL, MySQL, Redis

Backend

Node.js, Express.js, Golang, Redis, Laravel, REST APIs, GraphQL

Other

WordPress, WIX

Frontend

React.js, Next.js, Vue.js, TypeScript, Tailwind, Ant Design, SASS, Bootstrap

Tools & DevOps

Git, Postman, Docker, CI/CD, AWS, Digital Ocean

Languages

JavaScript, TypeScript, Go (Golang)

EDUCATION

National Open University Nigeria, Abuja, FCT, BSc Computer Science,

CERTIFICATES & AWARDS

Certified JavaScript developer — International JavaScript institute

Outstanding Developer Award — FMAFS Youth Hackathon
